Pakuwon City C3/193, Mulyorejo, Surabaya, Jawa Timur, 60111

Business Statistics student at ITS combining applied statistical modeling — ARIMA time series forecasting, market and financial analysis — with hands-on leadership in media strategy and content operations. Grew faculty social media reach to 220,000 views in one month and helped drive three study programs into ITS's Top 10 most competitive programs. Skilled in Python, R, and data storytelling, with a track record of turning data into decisions across academic, organizational, and business settings.

Pendidikan
